## Jasper

### Jasper Gemstone meaning

A strong protection gemstone, jasper sustains and supports during times of stress. Jasper is one of the oldest known gemstones. It is mentioned in the Bible several times. Jasper is a strong securing gemstone. It is a stability gemstone. It is a powerful protection against things that are not good for you and it eases emotional stresses, making it a wonderful gemstone to have in your home.

Yellow Jasper offers protection during spiritual work and physical travel. It channels positive energy. It stimulates the solar plexus chakra.

### Healing properties of Jasper

Jasper comes in many colors. All colors of Jasper will help balance the vibrations of the body. Jasper is slow to show a change to the person, but is such a basic "good" stone that one should always have it on hand.

Yellow Jasper releases toxins and helps with digestion in the stomach.
